USERN: the twilight of the 2nd year and the dawn of the 3rd year

Universal Scientific Education and Research Network (USERN) stepped in the 3rd year of activity, this month with the resolution of New Year, 2018. USERN, officially announced two years ago, was formed to mean the science without borders via

to continue their activities (6). They published more than 260 scientific papers under the affiliation of USERN with more than five hundreds of citations and h-index of 12 (Figure 1). The USERN collaborating centers for such scientific output were from Iran, USA, UK, Sweden, France, Germany, Austria, Australia, Canada, and Italy, as top 15 countries. Considering this

>500 papers so far!
